PROFESSIONAL EXPERIENCE

Backend Developer Intern | IT Infonity May 2026 – October 2026

- Worked on Django APIs and server-side application logic.
- Tested API endpoints using Postman to verify request payloads, headers, and HTTP status codes.
- Debugged stack traces, database query issues, and input validation errors to resolve application bugs.
- Participated in application testing and collaborated with the engineering team using Git and GitHub.

FEATURED PROJECT

HRMS – Human Resource Management System
Technologies: Python, Django, Django REST Framework, PostgreSQL/MySQL, Postman, Vercel, Render
Live Application: https://hrms-frontend-cr1h.vercel.app/login
Backend: https://hrms-backend-yj0q.onrender.com

- Developed and tested Django REST Framework APIs for managing employee and department data.
- Worked with relational database schemas, foreign key relationships, serializer validation, and HTTP error responses.
- Tested API responses, including HTTP 200, 201, 400, 401, and 404 status codes, along with payload boundary cases using Postman.
- Configured deployment workflows connecting a Vercel-hosted frontend to a Render-hosted backend.
